## Bobcats Put Record on Line Here Tonight Against a Strong Malvern Eleven

Hope's Bobcats will attempt to knock off Malvern here tonight at 8 o'clock in the High School Stadium in what has been expected to be a tough battle.

The Bobcats will be playing without the services of their stellar guard, S. Westbrook, who is recovering from an injury suffered in last week's game. Also a couple of other linemen are nursing bruises but will play tonight.

Malvern has an impressive record in taking shutouts won from Dicks 18-0; Conway 19-0 and Morrilton 18-0. The scores indicate the visitors have a pretty fair defense.

Hope will be seeking its 5th win of the season having overcome DeQueen, Prescott, El Dorado and Jonesboro in that order. A large crowd is expected.

By CARL BELL. Little Rock, Oct. 8.—(AP)—A pigskin prognosticator who called the end of Little Rock high's 3-year victory streak and has a 75 per cent accuracy rating for the season takes some more potshots today. He says the Razorbacks may have one of their toughest battles of the year on their hands in this one. But they're out for revenge and to maintain their streak.

## U.S. Abandons 'Soft Talk' With Russia

By JOHN M. HIGHTOWER

Washington, Oct. 8.—(AP)—The United States appears today to be casting aside the last restraints in its propaganda war with Russia.

From two top officials comes evidence that the day of soft talk toward the Soviet Union has passed. It is entirely a new period of blunt statements unvarnished by the familiar phrases of diplomacy.

In Washington, Undersecretary of State Robert A. Lovett revealed that he has received orders from Paris to "debunk" the latest Russian proposal for dealing with atomic energy. These orders presumably were given by Secretary of State Marshall himself.

And in Durham, N. H., Assistant Secretary of State Charles E. Seltzman declared in a speech that the Soviet rulers since the end of the war have made this plain:

"That their real aim is world domination through the industrial revolution, communism and that they will stoop to any stratagem to coercion, subterfuge, duplicity or double dealing that serves their purpose."

Speaking before the University of New Hampshire, Seltzman thus used some of the harshest words ever applied to the Soviet Union in recent years by a top State Department official.

Lovett made his disclosures about "debunking" the Soviet atomic energy proposal in a brief speech before the United States Advisory Commission information.

That body, which the president appointed in August to advise the

## Neutrals Trying to Avoid Clash Over Berlin

By LOUIS NEVIN

Paris, Oct. 8.—(AP)—The "neutral" states of the security council today to avert a clash of the giants of the United Nations over Berlin.

Argentina's Juan A. Bramuglia saw Andrei V. Vishinsky of Russia for an hour, and the Argentine's associates said he was "very happy" over the talk. He is acting for the smaller nations in an attempt to bring about a settlement in the East-West struggle for the German city.

Herbert V. Evatt of Australia, the assembly president, and Secretary-General Trygve Lie were reported today to appear to the United States, Russia, Britain and France to agree to a three-month truce. This would involve lifting the Soviet blockade of Berlin while the four foreign ministers met.

American and British sources said acceptance of such a course was unlikely because it might imply Russia had a right to reimpose the blockade.

Bramuglia was given the go-ahead by the other states of the council—China, Colombia, Syria, Belgium and Canada—to approach the big powers in the spirit of mediation. Bramuglia was said to believe that Russia and the Western powers would eventually agree to a settlement if neither side loses too much face.

The next meeting of the security council on the issue is not expected before Monday.

The great powers achieved unanimity in one phase of the U. N. deliberations today. The general assembly, without a dissenting voice, adopted a protocol on nuclear controls.

Mrs. Eleanor Roosevelt, U. S. member of the "four big powers" which drew up the document, appealed for unanimous action by the assembly. She described the arrangement as designed "to modernize the existing 'ban' on atomic weapons established in 1925 and 1931, adding that new synthetic drugs not controlled by existing statutes 'came upon us suddenly with their power for good or evil'.

The assembly elected Cuba, Egypt and Norway to the security council for two-year terms beginning Jan. 1.

## Men Refusing to Do Women's Work Is Big Problem to New England Textile Plants

By HAL BOYLE

Fall River, Mass.—(AP)—A chief industrial problem in this old New England textile capital is the refusal of men to do "women's work."

It is also a leading cause of underemployment.

This is a happy hunting ground for a bachelor looking for a wife. The men pick and choose. For women, outnumber men by a twelve-to-eleven margin, a ratio of the sexes opposite to that in Western sections of the country.

The reason is the heavy concentration of women in garment and textile plants. A number of plant officials as well as union officials would like to break up this concentration. But so far they've met with little success.

"The women originally brought in women because they wanted for lower wages," said one man familiar with
